Newark Bay SedFlume Draft QAPP-EPA-9-14-2012.pdf

Rob/Bill,

Attached you will find the Draft QAPP to perform SEDFLUME and consolidation tests in Newark Bay for your review. We are planning to mobilize on October 14, therefore comments are due to me by Monday October 1. Please let us know if you would like to have a conference call to discuss prior to submitting your comments. Let us know as well if your modelers are interested in watching how the tests are done, so we can coordinate that.

Thank you,  
eugenia
